

Healthcare Storage Solutions

Meets HIPAA Regulations

tennsco
SYSTEMS FOR SUCCESS

The Health Insurance Portability and Accountability Act of 1996 (HIPAA) has placed even greater demands on healthcare providers to safeguard patient information. In fact, the violation of a patient's privacy can result in a substantial penalty.

Tennsco can help your organization meet HIPAA regulations through a wide range of proven filing and storage products. Each meets HIPAA regulations for keeping medical records in locked cabinets yet allows your organization to operate efficiently.

Choose from a variety of storage and shelving equipment fitted with lockable doors to keep contents secure. If you prefer to keep your current investment in shelving, Tennsco also offers door options that can be retrofitted to almost any shelving product.

Tambour Door Option

Unique locking tambour door secures almost any shelving unit. Simply pull up on the retractable door and it exposes the contents. Roll-up door assembly can be retrofitted to most existing closed four-post shelving units. Doors available in metallic silver finish only. Available in widths of 36", 42" or 48" and heights of 76" or 88".

A push of a single key locks the entire cabinet.

Hinged Door Option

Offers convenient yet lockable storage for 36", 42" and 48" wide units. A simple turn of the handle opens both doors. Available in heights of 76" or 88".

Sliding Door Option

Locking sliding doors offer easy access to information. Ideal for hallways or tight spaces where room to open swinging doors is limited. Available in widths of 36", 42" or 48" and heights of 76" or 88".

Fixed Shelf Unit

Good looking Fixed Shelf closed units with spring assisted retractable doors offer security to patient charts. A single key locks all doors at once. Perfect for front office applications.

File Cart

Make sure your patient information gets re-filed. Tennsco's handy file cart makes it easy to get files back to their proper place. Available in 18" or 24" deep versions.
