

L & T Modular Drawer System

tennsco
SYSTEMS FOR SUCCESS

Fits All L & T Shelving

High Density Storage Drawers can be added to any new or existing L&T Shelving installations (excludes L&T Library Shelving.)

Seven Drawer Heights

Tailor L&T to your specific needs with drawer heights of 3", 4½", 6", 7½", 9", 10½" and our special 12" lateral filing drawer.

Built-in Safety

For added safety, drawers and suspensions cannot be pulled out from the unit.

Anti-Rebound Mechanism

Especially helpful in mobile filing systems, this feature prevents drawers from opening when file is moved.

Lateral File Drawer Option

File letter and legal size hanging folders side-to-side (standard) or front-to-back (optional).

Drawers hold up to 200 lbs*

Heavy-duty construction and quality craftsmanship allow for superior weight capacities.

Base Spreader

When your L&T system includes a drawer at the bottom of the unit, a base spreader will ensure the rigidity of the unit and provide a clean, finished appearance.

Intermediate Spreader

Adds rigidity and keeps units square so drawers remain aligned for easy opening.

Choice of Drawer Depths

Select 15", 18" or 24" depth for single entry drawers and 30" or 36" depth for double-entry drawers. Note: lateral drawer not available in 24" size.

Built-in Label Holder

Full-length label holder allows drawer contents to be identified accurately.

Adjustable Drawer Partitions

Customize drawers for the ultimate in organization.

Full-length Drawer Pull

Strong, full-length drawer pull for easy access to drawer contents.

Heavy Duty Suspension

Smooth operating ball bearing side-arm suspensions are superior to cradle style suspensions and make drawers easier to open and close.

Three Drawer Widths

Choose from 36", 42" or 48" widths to meet your specific needs.

Full Access to Drawer Contents

Drawers pull out completely from the shelving for full access.

*Single-shelving units must be bolted to the floor or wall for safety.

L&T Modular Drawer System

Tennsco's Modular Drawer System is the ideal storage solution where small items need to be stored along with filing or larger items.

Store 50% or more in the same space.

Combining L&T Modular Drawers with your shelving makes it possible to store 50% more small parts or media in the same space or the same amount in half the space. Why? Because up to two thirds of the items found in a typical storage installation could be more efficiently stored in drawers.

Dramatically reduce retrieval time by 60% or more.

Utilizing optional partitions and dividers, the L&T Modular Drawer System provides unequalled storage density. By storing more items in inventory with other fast moving items, regardless of size or shape, and making them easier to access, you can cut the average walk time for retrieval dramatically.

Drawers install anywhere – one at a time.
Inferior drawer systems require drawers to be installed in multiples. Our system allows you to install one drawer at a time anywhere– to easily adapt to changing storage requirements.

Dual Entry

With accessibility from both sides of the unit, the L&T Modular Drawer System maximizes workplace efficiency by allowing multiple users access simultaneously. Available for 30" and 36" deep units only.

Lateral File Option

Handles a wide variety of storage applications. Available in 15" or 18" depths only.

Easiest Installation Ever

The new scissor-action bracket standard on L&T Modular Drawer Systems reduces installation time and complexity by 50%!

SYSTEMS FOR SUCCESS

Modular Drawer Features

Full Extension Drawers

Enjoy easy access to everything in each drawer with L&T Modular Drawers. The full extension feature accommodates the reach of the average person for fast, easy retrieval of all items.

Easy Expansion

With L&T, you can easily add drawers to your existing L&T shelving anytime you need them.

Space-Saving Versatility

L&T Modular Drawers make the best use of valuable storage space and offers a smart solution for storing both large and small items in one unit.

Heavy-Duty Construction

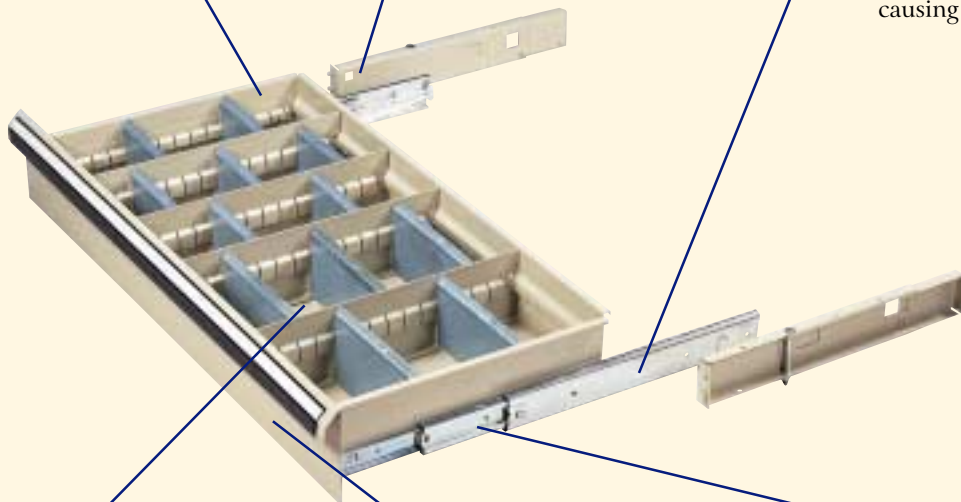

Quality materials and craftsmanship can accommodate up to 200 pounds per drawer.

Bracket

Heavy gauge steel brackets make mounting Modular Drawers to L&T shelves quick and foolproof.

Accident-Proof Suspension

Sturdy, smooth suspension includes safety stops to prevent drawers and contents from falling out and causing injury or damage.

Adjustable Dividers

Your storage options are virtually unlimited with L&T's adjustable dividers.

Easy Retrofitting

Convert your L&T shelving units to closed storage cabinets with L&T Modular Drawers.

Smooth Operation

Thanks to smooth, durable, steel ball bearings, L&T Modular Drawers are always easy to open and close.

Limitless Storage Applications

Audio/Visual Materials

L&T offers a simple storage solution for audio/visual tapes, microfiche and CDs. Items are easy to locate and retrieve.

Computer Media

Growing computer use requires more storage space for Zips, CDs, tapes and disks. L&T provides an efficient solution.

Forms & Specialty Documents

Keep odd-sized business, legal and financial forms and documents clean and organized with versatile L&T Modular Drawers.

Collections & Artifacts

L&T Modular Drawers provide effective, space-saving storage solutions for even the most unique applications.

SYSTEMS FOR SUCCESS

Components To Customize L & T Shelving

The L&T Modular Drawer System offers a variety of components for a wide range of sizes to accommodate almost any storage situation. Plus, it fits your existing shelving installation without buying any other shelving components. You maintain your shelving investment while substantially improving its storage capability and accessibility. Drawers are completely assembled and welded for added strength and durability.

Seven Drawer Heights

Select and mix drawer heights specifically sized to your storage requirement.

Partitions/Dividers

Drawer partitions adjust without tools to create 2, 3, 4, 5, 6 and 8 equal rows or columns for easy organization. Dividers with easy-to-see angle labeling area, adjust in 1"

increments to meet your exact storage needs.

Spreaders

Spreaders help to ensure unit rigidity and a clean appearance. Add kick plate spreaders to the bottom when your L&T unit includes a bottom drawer. Intermediate spreaders must be used for the top

or center of the unit, and an additional spreader is needed for each 36" of drawer height you add.

Lock

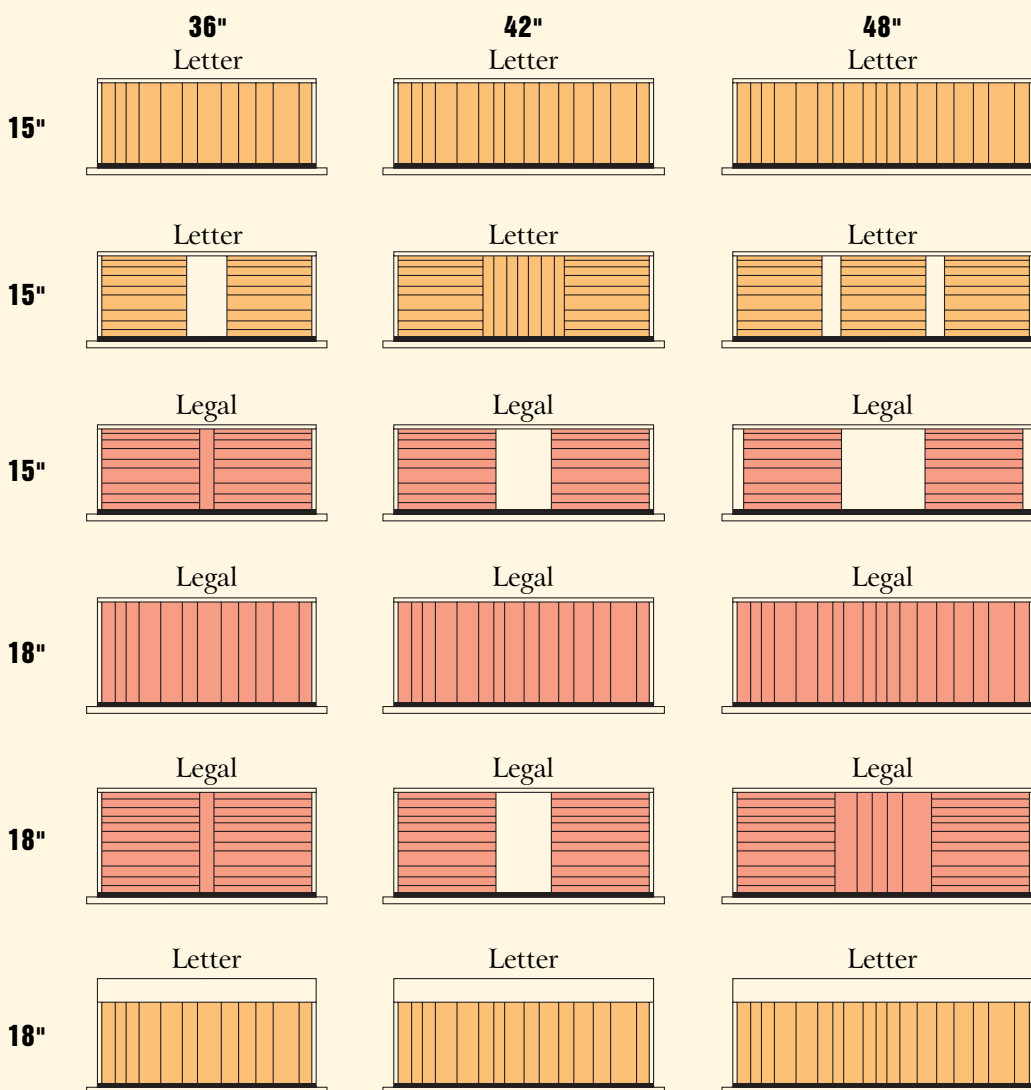

Optional lock allows you to lock each drawer individually as needed for security. Lock available only for drawers 6" and higher.

L & T Modular Drawer Systems For Lateral Drawers

The flexible L&T Modular Drawer System allows you to create a variety of lateral drawer configurations to meet your specific storage needs.

NOMINAL DIMENSIONS	INSIDE DIMENSIONS	
	Width	Depth
36" x 15"	31 5/8"	13 1/8"
36" x 18"	31 5/8"	16 1/8"
42" x 15"	37 5/8"	13 1/8"
42" x 18"	37 5/8"	16 1/8"
48" x 15"	43 5/8"	13 1/8"
48" x 18"	43 5/8"	16 1/8"
